

## Brain Breaks

Dynamic speakers, compelling topics and networking opportunities attract attendees to annual conferences and conventions. How do you hold their attention, especially as their energy wanes by late afternoon or the second day of a conference?

Doug Kevilus provides the perfect way to recharge and reenergize your attendees after a long day of sessions and networking.

Providing an interactive, high energy, brief show that allows for interaction and audience participation serves as a breath of fresh air that reenergizes participants for their next session.

"I was initially looking for a "magician", but what I found out in Doug, is that I really wanted a mentalist. Doug exceeded our expectations in entertaining our crowd with wit, humor, and of course magic. I would highly recommend him for your next corporate event."
