

Keynote Speaker

Stephen Hawking once said; "The greatest enemy of knowledge is not ignorance, it is the illusion of knowledge." As a professional mentalist Doug has studied psychology, memory, and how the mind works. Not only is he entertaining but he also provides real information that his audience can put to immediate use. What makes Doug so effective is his unique blending of the message with entertainment.

Doug's sessions entertain as they educate leaving the participants enthusiastic and highly-motivated about achieving greater levels of success in their professional and personal lives.

Some of Doug's topics include:

- **Daily Deceptions**
- **Communication Patterns**
- **Mistakes Will be Made**
- **Change Your Patterns – Change Your Life**

I just wanted to let you know that the feedback my nursing class gave regarding your class was nothing but praise. They had a lot of fun and really thought the class was beneficial for not only their professional/trainer life, but also for their personal lives. They said "It was one of the, if not the best class they have ever taken in their career and maybe even life".
